SWIFT RL PRO

Designed for the workshop, small maintenance jobs, or concerts and shows, the SWIFT RL PRO rechargeable headlamp offers 900-lumen brightness. With REACTIVE LIGHTING® technology, a sensor analyzes the ambient light and automatically adjusts headlamp brightness to user requirements. It also has red lighting to ensure stealth. SWIFT RL PRO is intuitive, with a single button for easy control over all lamp functions. The five-level gauge allows precise monitoring of the battery charge level. The lamp is compatible with Petzl helmets, and mounting accessories allow it to be attached to any kind of helmet.

Ultra-bright and lightweight: 900 lumens at only 123 g.

Longer burn time, greater visual comfort and less manual operation with REACTIVE LIGHTING® mode: the light sensor automatically adjusts brightness and beam pattern, optimizing battery usage.

The lamp is compatible with Petzl helmets, and mounting accessories allow it to be attached to any kind of helmet.

Charges via micro USB port.

Short Description

Ultra-powerful, lightweight rechargeable headlamp with multi-beam and REACTIVE LIGHTING® technology, for proximity and distance vision. White lighting, or red to ensure nighttime stealth. 900 lumens

Selling Points

- Ultra-bright, lightweight and rechargeable:
 - 900 lumens at 123 g
 - Lithium-Ion 2350 mAh battery, rechargeable via the type B micro USB port, with battery charging indicator
- Optimized comfort and burn time:
 - visual comfort from the two beam patterns (mixed or focused), providing high-performance lighting for professionals: proximity vision, movement and distance vision
 - three lighting modes selected with a long hold: STANDARD LIGHTING, REACTIVE LIGHTING® and red lighting
 - longer burn time, greater visual comfort and less manual operation with REACTIVE LIGHTING® mode: the light sensor automatically adjusts brightness and beam pattern, optimizing battery usage
 - continuous red lighting combines visual comfort and stealth
- Intuitive and convenient to use:
 - ease of use, with a single button providing control over all functions: ON/OFF, lighting modes, brightness and locking
 - lamp can be tilted upward
 - LOCK function to avoid accidentally turning it on during transit or storage, or to lock lighting settings during your activity
 - five-level gauge for precise monitoring of the battery charge level
 - detachable, washable headband
 - compatible with Petzl helmets, thanks to the included mounting plate
 - compatible with other helmets (1), using plates, available as accessories

(1) For other helmets, verify compatibility with the helmet manufacturer.

Specification

- Light output: 900 lumens (ANSI-FL1 STANDARD)
- Weight: 123g
- Technology: REACTIVE LIGHTING® or STANDARD LIGHTING
- Beam pattern: mixed or focused
- Energy: 2350 mAh Lithium-Ion rechargeable battery (included)
- Recharge time: 6h
- Certification(s): CE
- Watertightness: IPX4 (weather-resistant)
- Headlamp comes with a plate for mounting on Petzl VERTEX and STRATO helmets.

Lighting performance

Lighting performance as defined by the ANSI/PLATO FL 1 protocol						
Lighting technology	Lighting color	Lighting levels	Brightness	Distance	Burn time	Reserve
REACTIVE LIGHTING®	white	close-range work	100 lm	35 m	10 to 50 h	10 lm for 2 h
		proximity	300 lm	55 m	5 to 40 h	15 lm for 2 h
		movement	900 lm	150 m	2 to 30 h	
		distance vision	550 lm		4 to 50 h	
STANDARD LIGHTING		close-range work	10 lm	12 m	100 h	10 lm for 2 h
		proximity	200 lm	55 m	5 h	15 lm for 2 h
		movement	550 lm	110 m	2 h	
		distance vision	250 lm	95 m	4 h	
		red	-	visible at 700 m for 30 h
