Product Care

Product Care

- READ THE GARMENT LABEL AND LAUNDRER PER INSTRUCTIONS ON GARMENT LABEL.
- DO NOT use bleach or hydrogen peroxide. DO NOT use fabric softeners.
- Wash/Laundrying Instructions: Wash separately from other garments. Machine wash warm (max. 120°F/50°C) using mild detergent. Rinse 4 times (adding extra rinse to standard 3-rinse cycle) to remove all soil and detergent residues. Dawn Dish Liquid is recommended for oil based stains. Pre-treat the area, soak for stubborn stains or mild stain treatments may be used. Ensure the product is completely rinsed from the fabric before drying.
- Drying: Turn garment inside out before drying. Tumble dry using permanent press setting (medium). Tumble drying is recommended to protect garment's water repellent treatment.
- Wash according to the instructions above to remove any contaminants in order to maintain fabric performance when garment becomes soiled with dirt, greases, oils, etc.
- If contaminants cannot be removed after laundrying, it is best to discontinue use of garment.
