STANDARD ROLL

GENERAL

Art. no.:	H-067
EAN:	4030281042273
Standard:	EN 12278:2007

E-class number:	40-02-01-90
Customs no.:	84311000

Data sheet

STANDARD ROLL

Rope pulleys are essential for routine operations involving the rescue and transportation of persons. Rope friction is reduced and the transported load is moved more easily by means of pulley blocks. SKYLOTEC rope pulleys are fitted with ball bearings and are made of aluminium. All pulleys comply with EN 12278 and UIAA 127 and are manufactured in the EEC. High quality is also reflected in their design. The mould design ensures minimal material use and lightweight design of the rope pulley.

FEATURES

Breaking load, major axis:

32,00 kN

Max. working load: 2,00 kN

Max. service life: 10 Years

Area of application:

Arborists, Fire brigade / Rescue / Special Forces,
Power Supplies / -Transmission /
Telecommunications, Rope Access / Rigging,
Rope Courses, Wind Energy / Offshore Industry

DIMENSIONS

Size: 123 x 70mm

Hole diameter: 27 mm

Weight: 0,24 kg

MATERIAL

Material: Aluminium
