

SentryGuard™

Meets OSHA Requirements

1926.502(b)(3) and (b)(4)

1910.29(b)(3) and (b)(4)

Fall prevention gate to protect open loading docks, stairwells, shipping pits, limiting access, and more. Easy operation and OSHA compliant.

Two models available:

- Single opening gates for openings 3 ft. to 12 ft. wide.
- Split opening gates for openings 6 ft. to 14 ft. wide.

Features

- Easy to open vertical gate to protect dock or pit loading areas.
- Split opening cantilever style accommodates wider openings & lower ceiling heights.
- One foot increments standard, custom sizes available.
- Operation assisted by gas struts for easy lifting.
- Available only in safety yellow powdered coated finish.
- Split gates lock together at the center in the closed position for added strength.

Specifications

- Available in sizes from 3 ft. to 14 ft.
- Standard 12 ft. clear opening split gate fits most shipping pits.
- Single gate includes 6 concrete anchors, split gate include 8.
- Optional key lock to prevent access.

Single Gate

Split Gate
